ORAL AND PRINTED REPORTS WERE PRESENTED BY ASSOCIATION OFFICERS AND STAFF

President Patrick Pizzarelli welcomed everyone to the meeting and stated it was an honor and privilege to be the President of the Association. He reminded everyone that it is our responsibility to run and keep the athletic programs in New York State at the current level of excellence.

1st Vice President Mark Ward welcomed the group and reported on his attendance at a recent NYS Federation meeting, the Championship Advisory Committee meeting and the NYSCOSS meeting in September. He stated there are many challenges ahead and wished Pat well as he embarks on his Presidency.

Executive Director Nina Van Erk reported on her attendance at various conferences, meetings and championships during the months of August through October and presented the following items of interest.

- **Mandatory Eligibility Workshops.** Twelve workshops were conducted throughout the state with the assistance of Bob, Todd and Joe. The workshops were very well received as they were informative for both the veteran and new athletic administrator. The evaluations received reflected that the workshops met the expectation of the attendees and the topics and information were pertinent. All member schools have met the mandate for the 2008-2009 school year. The total workshop cost to the NYSPHSAA was over $5,100.

- **GED Diplomas.** Trish Kocialski, NYSED, offered the following interpretation regarding students who have received their GED diplomas: “Earning a high school equivalency diploma or an Individualized Education Program diploma shall not be deemed to be equivalent to receipt of a high school diploma pursuant to Education Law, section 3202(1) and shall not terminate a student’s entitlement to a free public education pursuant to such statute. Students can be enrolled in the school and eligible for interscholastic athletics as long as they meet all the other eligibility requirements.

- **NYSPHSAA Hall of Fame.** She reminded nominations for the 2009 NYSPHSAA Hall of Fame are due to the Association office by December 15th. All nominations must be endorsed by a Section.

- **Kings School.** The Kings School is no longer a member of the NYSPHSAA for the 2008-2009 school year. However they were approved as a Friend and Neighbor of the NYSPHSAA in October 2007.
A motion to approve Section III’s request for the following changes to the Frontier League Modified Sports Season dates carried.  Slack/Wolfe

Volleyball: October 27 – December 20; Wrestling: November 6 – January 10; Basketball: January 12 – March 20; Springs Sports start on March 23.

- **Jewish High Holy Days.** A letter was received from Hewlett Woodmere School District requesting consideration to change the seven day practice regulation to accommodate the observance of the Jewish High Holy days. The request was referred to the Handbook and Safety Committees for review.
- **Participation Survey.** The NYSPHSAA will be conducting the Participation Survey this spring. She asked that the athletic administrators in each Section be reminded of the importance of this survey so we may once again accomplish our goal of 100% data submission.
- **Executive & Central Committee.** She introduced two new members to the Executive Committee. Liz Hemstead, Section II’s Female Representative and Dennis O’Brien, Section V’s Male Representative.
- **NCAA Freshman Eligibility Standards.** She reminded that starting August 1, 2008 student athletes in Division I institutions will be required to have 16 core courses.
- **Retroactive Action.** This fall a number of requests have been received to retroactively approve Friends and Neighbors applications. The office will work more closely with the Sections and schools to avoid this in the future.
- **NYSPHSAA Directory.** The 2008-2009 NYSPHSAA Directory was included in the meeting folders. If any additional changes are necessary, please submit them to Sandy Schanck at sschanck@nysphsaa.org.

Assistant Director Todd Nelson

- **Annual Classification of Schools.** Reminders have been sent to all Section offices detailing the process of collecting and submitting BEDS numbers to the Association. The BEDS numbers from each Section are due to the Association in November. The Sections will be given a copy of the report for their review before the final report is made to the Executive Committee in January 2009.

- **Coaching Certification.** The Coaches’ Education Committee will be meeting October 20, 2008. The committee is finalizing the updates for the three required courses. They are also working with the State Education Department to ensure that all instructors are certified and teaching the courses properly. We will be signing a new contract with SUNY Cortland to continue the on-line coaching education courses.

- **Sanctioning/Outside Agency.** Contacting the Association when member schools wish to compete against schools from outside the state is very important and we are glad to help schools with the sanctioning process. Please encourage your schools to continue to contact the office when they are considering competing against schools from outside the state. We are working with the Section Executive Directors to ensure that all Sections are using common criteria when dealing with outside agencies as we feel it is vital that everyone is treating outside agencies in the same fashion.

- **NYSFHSAAA Records Database.** The office has been working very hard to update the records we have for all of our sports. We really need the help of our sport coordinators to keep us informed of any records that may be broken. All Sport Coordinators and Section representatives should remind schools that record reporting forms are available on the Association website.

- **Coaching Clinics.** The following clinics are scheduled:

**Media**

- The Media Advisory Committee meeting was cancelled in August due to a lack of availability of most of the committee.

**Fall Intern**

- **Ms. Audrey O’Connor** began interning in the Association office in late September and will be with us through mid-December. She is a senior communications major at SUNY Albany and a former volleyball student-athlete at Williamsville North in Section VI.

**Treasurer Kathy Higle** reviewed the budget stating the Association finished the year $60,000 worse than planned due to loss in investment income. She highlighted:

- Sponsorship revenues did much better than budgeted.
- The increase in the post retirement health benefit was due to personnel changes.
- Work on the Concussion Management program was billed to our grant which decreased our expenses.

**Counselor Renee James**

- Reported a decision had been received by the Commissioner of Education regarding the Mixed Competition appeal pertaining to the female bowler that participated on the boys’ bowling team during the regular season and wanted the ability to bowl on a girls’ bowling team if her boys’ team didn’t qualify for States. The Commissioner of Education’s decision stated that the appeal be dismissed as moot as the 2006-2007 bowling season is long over and the female bowler has since graduated.
- Reported pending litigation on an extended eligibility case where a student who suffered from depression was denied an extended year of eligibility.
- Asked everyone to be more attentive to treating girls and boys sports equally as parents have become more educated in the equality of sports.
- Announced there will be a legal meeting with the Section Executive Directors and Section Counselors in the spring and asked if anyone had cases they would like to discuss to please send them to Nina in advance.

**Director of Government Relations Kevin Banes**

- Reported on the work taking place at the legislature that he will be following closely most notably the governor calling back the legislature in November to address the $2 billion deficit. He does not expect public education to be touched as it is in the middle of the school year. However, when the budget process begins, everything will be on the table for cuts including public education.
- Reported if the property tax relief legislation in the form of a 4% property tax cap over the previous budget is approved, there will be some real challenges to school districts across the state. He and Nina will work with other education based associations to fight against proposals having adverse financial
impact on school districts.

- Reported initiatives to begin in January are:
  - Steroid Education. He will work with the legislature and NYS Education Department to find funds to allow the Association to take the lead on steroid education.
  - Military Service bill introduced last year. He will work with the sponsors of the bill to ensure the number of practices that a student must participate in will be required and a school district should not impose any additional restrictions on that student.
  - He will be working with legislators regarding the safety of sport officials to create legislation that will impose higher penalties on anyone who assaults a sport official.

**AD HOC COMMITTEE**

**Sport Season Committee.** Jim Osborne

- Reviewed the preliminary results of the Sport Season Survey for 2008 that was distributed to all Athletic Directors at their mandatory Section Athletic Directors workshops.

**SECTION CONCERNS AND INPUT**

**Section 1** voiced a concern about financial considerations. They stated their Superintendents wanted them to look at schedules that were already in place in an effort to reduce travel and other expenses.

**Section 2** voiced a concern about financial issues. They have asked their sport coordinators to report back on how they can save money in different areas.

**Section 3** voiced a concern about financial issues. They have created a list of items for their Superintendent Representatives that will be discussed and considered in the future.

**Section 8** stated they were instructed not to vote on anything with financial impact. They also stated their Superintendents questioned how can an issue come back on the floor when it was voted on by all four Central Committee members in August.

**Section 11** voiced a concern with a Selection/Classification issue. When a 7th or 8th grader only qualifies for the JV team and that athlete starts practicing and playing on the JV team they are at a disadvantage when that JV team dissolves. Where does that student go? They cannot go back to the modified level and they are not qualified to play on a Varsity team. (This issue will be put on the Spring Modified Committee meeting agenda.)

ORAL AND/OR PRINTED REPORTS WERE PRESENTED BY THE FOLLOWING STANDING COMMITTEES

**Life of An Athlete.** Co-Coordinator Patti Murphy presented the report.
- Section 8 and 11 will have training for Year 4 on December 5th and December 4th respectively.
- Year 5 “Putting it all Together Stakeholders Unity” is completed and has been piloted in Sections 3, 4 and 7.
- Future topics for trainings are: Alternatives for kids and the Social Host Law, Assessment Tools for concerns (senior exit interviews and coaches’ survey), high school level of Life of an Athlete, Senior College Prep (what’s ahead in the next four years) and Parenting. If there are any other topics of interest that you would like presented, please contact Patti or Mike Schwenk.
- The next meeting of Life of An Athlete Committee is scheduled for Monday, October 27, 2008 at 10:00AM at the NYSPHSAA office with a planning meeting on Sunday, October 26th at the Holiday Inn, Wolf Road, Albany at 5:00PM.

**Safety Committee.** Assistant Director Todd Nelson presented the report.

**Minimum Weight Certification Program**
- Section consultants have been offering courses to certify new instructors for our program.
- Athletic Administrators have been asked to share the portfolios and CD’s that were provided by the Association with their coaches, student-athletes and parents.
- Schools are also encouraged to use the National Wrestling Coaches Association program to help students and parents maximize their potential.
- We are working with the Coaches Association to have any fees waived for our state.

**Concussion Management**
- Lloyd Mott has secured another grant for this year and will work with the Association to implement a “Grass Roots Approach”. He will be meeting with each Section Concussion Management team to assist them in establishing a viable program for their schools. He is also working with the Sections to recognize centers within the Section that student athletes can receive additional services if their symptoms do not improve. If any Section or school has any questions or concerns, they can contact Lloyd directly at fit4lifeconsulting@gmail.net.

**Heat Index**
- The Safety Committee has formed a sub-committee to look at making a recommendation to the Executive Committee in the spring of 2009 regarding each Section establishing a policy regarding heat index. Currently Section XI is the only section that has a policy and Section VIII is looking to adopt a policy similar to Section XI. Please contact your Safety Committee representative for further input.

**Girls Lacrosse Helmets**
- The Safety Committee has gathered a tremendous amount of data regarding head injuries to female lacrosse players. An orthopedic surgeon who has experience in the Albany Trauma Center spoke to the committee regarding study data and his concern for potential catastrophic injury in girls’ lacrosse. The data shows that girls are more likely to have a head/facial injury than boys due to the fact that the boys are protected and the girls are not. The feeling that has come out of the girls’ lacrosse community and US Lacrosse is that helmets will make the game more physical, which could result in more injuries.
- The Safety Committee representatives have been instructed to go back to their Sections to communicate and distribute the data that has been collected to coaches, athletic administrators, principals and superintendents. A conference call with the entire committee is scheduled for December 12, 2008 to discuss this topic further and to possibly make a recommendation to the Executive Committee at the January 2009 meeting.

**High Holy Days**
- The committee discussed the concern raised by a Section regarding High Holy Days and the Seven Day Practice Rule. The committee did not want to waive the Seven Day Rule in this instance as they felt it was a Section and League issue. Many Sections and Leagues find themselves in similar situations during
the year and make the proper modifications to their schedule.

**Suspended Games**

- The committee discussed the issue of how to handle suspended games as it relates to the night of rest. They will collect data from each sport coordinator on how they handle suspended games. The opinions of athletic administrators and sport coordinators will also be sought on how many nights of rest they recommend before the game is completed. The findings will be reviewed at their Spring 2009 meeting with a recommendation to follow.

**Thunder and Lightning**

A **motion to approve** removing the word *approximately* in the Thunder and Lightning Rule (NYSPHSAA Handbook, p. 110 (2)(c) **carried**. O’Brien/Redmond

The rule will now read, “After thunder and/or lightning have left the area, wait 30 minutes after the last boom is heard or strike is seen before resuming play or competition.”

- The next meeting of the Safety Committee is scheduled for Wednesday, April 22, 2009 at 9:00AM at the NYSPHSAA office.

**Sportsmanship Committee.** Assistant Director Todd Nelson presented the report.

**Mandatory Workshops**

- Each Section held a mandatory sportsmanship workshop this spring. Even though each Section used a different format, the content and message was consistent and pertinent to each Section. He thanked all the sportsmanship coordinators for their effort in putting together these workshops.

**Hazing/CTA Workshops**

- A hazing workshop will be conducted for the ECIC and Section VI schools on November 3rd.
- A Citizenship Through Athletics course will be taught on November 19th at the NYSAHPERD Conference being held at Turning Stone and February 4, 2009 at the NYSPHSAA office. Anyone interested in these two courses should contact Todd Nelson at the Association office.

**Good Sports Program**

A **motion to approve** the committee’s recommendation to change the name of the Good Sports Program to the Sportsmanship Promotion Program **carried**. Slack/Wolfe

The rationale for this change is to emphasize the purpose of this program, which is to have school districts create policies and procedures that promote positive sportsmanship.

**Sportsmanship of a Coach**

- The committee supports the rule as currently written in the Handbook regarding a coach that has been ejected from the last game of the season should sit out the next game coached in the next season.

**Video Tape**

- The committee discussed the use of video tape in regards to ejections during a game. Most of the game rules do not allow officials to use video tape to help make calls during or after the game. This would be the same for unsportsmanlike ejections.

**New Program – Ejection Free Schools**

- The Association would like to begin a new program in September 2009 where schools who are ejection free (players and coaches) at all levels for the entire year will be recognized. The committee will work with Joe Altieri to secure a sponsor. Final details will be shared at the Executive Committee meeting in January 2009.

**Handbook Committee.** Chairperson Robbie Greene presented the report and committee recommendations.

**Senior All Star Contest**

A **motion to approve** the committee’s recommendation to remove the last paragraph of the Senior All-Star Contest eligibility standard (NYSPHSAA Handbook, p. 102) **carried**. Quimby/DeCillis

Paragraph to be removed states, “A student who participates in any unapproved all-star contest shall be ineligible to compete in interschool athletics in all sports for a period of one year from the date of such participation.”
Transfer Rule
• The committee discussed the reference to “one school district to another” in the Handbook and how it affects school districts with multiple high schools. They are seeking input from the Section Executive Directors to determine which multiple high school districts have defined attendance zones or open enrollment. It was suggested to treat the students in open enrollment multiple high school districts in the same manner as K-8 districts where once a student enrolls, that high school becomes the district of residence. Rationale – to add consistency in interpretation of the Transfer Rule.

Practice at Same Facility & Scrimmage
• The committee discussed the need to further define a scrimmage. The NYSPHSAA staff and Handbook Committee felt that a scrimmage is a simulated contest and should not be considered a practice. The committee recommends defining a scrimmage as a “practice competition” and striking the reference to “practice session” in the Handbook. They would like this recommendation taken back to the Sections for review and discussion.
• The committee discussed situations when two schools share a practice facility such as in the sports of wrestling and swimming. They felt that the redefining of a scrimmage provided clarity in these types of situations.

A motion to approve the committee’s recommendation for schools that have made arrangements with another member school to share the use of a practice facility may do so without violating the Scrimmage Regulation as long as the athletes/teams do not scrimmage before the required number of practices has been completed carried. Quimby/Maney

Two Sports in One Season
• Section II requested this issue be discussed at the Handbook Committee meeting. After much discussion, the committee offered no suggestion for change but supported the current policy that permits this to occur with Section approval.

Sportsmanship Regulation
• The committee discussed the situation when a coach is ejected from the last contest of the sport season and requested clarification by the Sportsmanship Committee prior to action by the Executive Committee.

Foreign Exchange Students
• The committee discussed permitting foreign exchange and international students who have graduated from school in their home country be permitted to participate in athletics as long as the student has met the age requirement. No support was voiced for this change.

Suspense Game
• As a result of a suspended football game in the Section V area, the committee discussed the Suspended Game rule. The committee affirmed that a suspended game is a continuation of a contest and the required number of nights rest rule does not apply. The committee cited that the sport specific game rules would also apply. The committee took no action but suggested this issue be taken to the Safety Committee for discussion.

Graduation Ceremonies Prior to State Championships
• Trish Kocialski reported on participation in interscholastic athletics after graduation ceremonies are held. A student who has completed the educational requirements for graduation in less than 8 semesters will have their eligibility expire upon the termination of schooling. Students who continue their education plan for the full 8 semesters are eligible until all the educational requirements (required examinations, course work, required attendance and achieved 22 credits) are completed. Holding a graduation “ceremony” early does not indicate that the student has graduation. If the student is returning to school after the “ceremony” to compete the educational requirements for graduation, they are still eligible for competition.

Seven Day Practice Regulation & the Jewish High Holy Days
• A school from Section VIII requested consideration to waive the seven day practice regulation due to the Jewish holidays. The committee discussed the matter and referred it to the Safety Committee for their review. (see Safety Committee report in these minutes)
Pro Am Events
- The committee discussed whether or not there was a need to establish a regulation pertaining to a student athlete’s participation in Pro-Am events. The committee did not see a need for such action.

Officials
- The committee debated the need for language in the Handbook to address the issue of the number of officials at athletic contests. The committee recommended this issue be addressed at the Officials Coordinating Federation meeting on October 19, 2008.

Future Discussion
- Transgender Policy. Consider the establishment of a policy to accommodate Transgendered students.

Future Meeting

Regions are proportionally allocated entries to the State Finals (3 or 4 entries) based on the total number of schools in the region. Four (4) of the regions will have an eight (8) man competition (Long Island West, Long Island East, Central, Western) and one (1) region will have 11 competitors (Capital).
  - Division II would consist of four (4) regions: Long Island-Sections 1, 8, 9, 11, PSAL; Capital Region-Sections 2, 7, 10; Central Region-Sections 3, 4; and Western Region-Sections 5, 6. **REPORTS FROM EX-OFFICIO MEMBERS AND CONSULTANTS**

**State Education Department.** Trish Kocialski
- Reviewed the interpretation of the Commissioner’s Regulation on Duration of Competition after receiving a question from the Handbook Committee requesting an interpretation of “prior to graduation” regarding participation in Sectional and State Tournaments.
- Reported the first round of the Office of State Comptroller’s audits was done. The OSC audit only found one school district in compliance. Congratulations Homer Central School!
- Highlighted two areas in the OSC audit that would be of interest to the Association:
  - **Personnel Requirement.** Every school district with a high school is required to have a Director of Physical Education who is dual certified in physical education and administrative supervision. As this does affect the smaller schools, waivers for extenuating circumstances can be issued.
  - **Coaching Certification.** Teacher coaches need to be certified within three years of their initial date of appointment as a coach. They can apply to SED for a two year extension but if the time period has elapsed, they can no longer coach. Non-teacher coaches only have to show satisfactory progress in completing the requirements. She is working to correct these irregularities by extending the teacher coach requirements by a couple of years and having the non-teacher coaches follow the same requirements as teacher coaches. She will keep us updated.
